DYALOG
Eastbourne 2026

Welcome to Dyalog ‘26

Stine Kromberg

Stine Kromberg

- CEO of Dyalog for 2.7 Years
- Worked for Dyalog for 6 years
- Tried to become a 2nd generation APL'er
- Discovered that people were more interesting than computers
- Everything not programming related

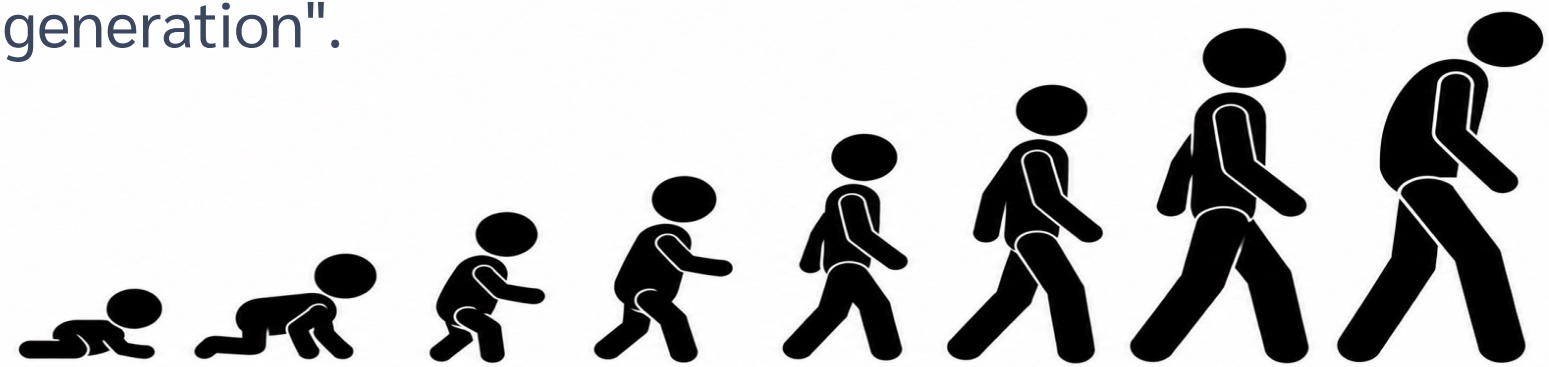
Welcome to Dyalog ’26

- What we do we sell?
- Why are we here?
- We need you to teach us something!
- What are you using APL for?
- Why are you using APL?
- What can we do for you?

Dyalog is growing

We are still working on the next generation

- Soon we need to start on the next "next generation".



New hires since last UM

Developers:

Business support:

MORE growth:

More users

- Outreach
- Host your own Dyalogger?
- New website
- Competitions
- Customer events

More thinking. Less code.

Dyalog APL is an array-oriented programming language that lets you express complex ideas in remarkably little code.
We build it, support it, and have done for over 40 years.

Given names and ages, who is 18 or older?

```
      names ← 'Kim' 'Alex' 'Ash' 'Jan' 'Gale'
      ages  ← 27 14 17 18 19
      (ages ≥ 18) / names
('Kim' 'Jan' 'Gale')
```

What is this sorcery?

New website

- Almost done…
- Beta testing is you!
- https://dyalogprod.gos.dyalog.com
- Beware: Things will be changed, moved and updated.
- Once we go live this link will stop working.

Feedback to:

nws20@dyalog.com

or Mike during the UM.

Purpose:

Provide an easy, fun and gamified way to learn APL.

Each round is self-contained

Where: challenge.dyalog.com

News:

New platform in 2026

New languages in 2027!
