

# Dyalog Ltd's 15th annual APL Problem Solving Competition

## **Students worldwide can participate.**

Put your programming and problem solving skills to the test by using any APL system to develop solutions to ten open-ended questions and solve a series of problems for your chance to win cash prizes.

APL is a high level programming language available in both free and commercial versions.

## **Why participate?**

This is a contest for people who love a challenge and learning new things for fun. At stake are 18 cash prizes totalling \$6,500, including a grand prize of \$2,500 and a trip to the next Dyalog user meeting.
